

NEW ERA AGRICULTURE MAGAZINE

VOLUME 03, ISSUE 09, FEBRUARY - 2025

CONTENTS

S. NO.	TITLES & AUTHORS	PAGE NO.
1	Aflatoxin Resistance in Groundnut: Genetic Approaches and Breeding Sunil Kumar and Aditya Kumar	1-6
2	Scientific Cultivation of Tomato Rajanikant, Aryan Raghuvanshi, Govind Maury	7-12
3	Improvement of Mustard Through Hybrid Breeding Techniques Sunil Kumar and Shivani Choudhary	13-17
4	CRISPR-Cas9: Revolutionizing Crop Improvement through Precise Genome Editing Deepika Tambe, Vaishnavi Dhandge, Rushikesh Matala, Komal Birajdar, Akshata Munde	18-26
5	RNA-Based Technologies for Pest Control in Agriculture Rushikesh Matala, Komal Birajdar, Deepika Tambe, Akshata Munde, Vaishnavi Dhandge	27-32
6	Harnessing RNA Interference (RNAi) for plant Disease Management Vaishnavi Dhandge, Akshata Munde, Komal Birajdar, Rushikesh Matala, Deepika Tambe	33-38
7	Enhancing Seed Germination and Emergence through Seed Coating and Pelleting Komal Birajdar, Deepika Tambe, Akshata Munde, Vaishnavi Dhandge, Rushikesh Matala	39-44
8	Synergistic Effects of Entomopathogenic Fungi and Microbial Biofertilizers on Soybean Growth and Pest Control Akshata Munde, Rushikesh Matala, Vaishnavi Dhandge, Deepika Tambe, Komal Birajdar	45-51
9	Finger Millet For The Next Generation Climate Smart Agriculture J. A. Soochismita Priyadarshini and Priyambada Palai	52-57
10	Understanding Epigenetic Modifications in Fruit Crops Under Stress Condition Md. Rizwanullah, Dr. Amit Kumar Singh, and Md. Zeeshan Qaiser	58-61
11	Pesticides and the Planet: Examining Their Environmental Impact Ritu Mishra, Diksha Joshi, Prathistha Chaudhary, Harshita Bora and Dharanikota Lalithambica Devi	62-71
12	Comprehensive Insights into Three Key Classes of Grape Phenolics: Anthocyanins, Stilbenes, and Flavonols Ujjwal Singh, Rajeshvari I Rathava, Shivaji N. Kolekar, Nitisha Chettri and Sukjai Dhar	72-78
13	Gene editing for disease resistance in wheat Shipra kumari, Piyusha Singh and Javed	79-85
14	Biology, Ecology, and Management of Fusarium Wilt in Chickpeas Adluri Prashanth, Challa Yashaswini, K. Gopika and K. Manasa	86-93
15	Impact of Mulching in Potato Cultivation Saurabh, Aayush Mishra, Vishal Pal	94-98
16	Millet Crop Enhancement Through Biotechnological approaches Arpita Jena, Mouli Paul, Sunil Bishnoi, Rajeshvari I Rathava and Somia Mahanty	99-105
17	Vegetable Grafting: A Game Changer for Horticulture Anjali Kumari Jha and Alok Kumar	106-113
18	Precision Agriculture: Using AI and IoT to Combat Climate Change Impacts Ms. Padmalaya Jena	114-117

19	A Research Approach to Identify Genomic Variants: GWAS Piyusha Singh, Akanksha Tiwari, Ajeet Kumar Gupta, Rishab Gupta, Javed, Gyan Prakesh Pandey, Raja Bhaiya	118-122
20	High Yielding Variety for Oat Cultivation in Sodic Soil of U.P Piyusha Singh, Shambhoo Prasad, Prashant Bisen and Rajesh Kumar	123-125
21	NDO 1101 (Narendra Jayee - 1101) dual purpose as well as suitable for normal and salt affected soils in U.P. sub- committee on crop standard, Notification of varieties Dr. Piyusha Singh, Dr. Shambhoo Prasad, Dr. Rajesh Kumar and Dr. S. C. Vimal, Javed	126-127
22	Mutation Breeding: A Tool for Developing Stress-Tolerant Crops Dr. Amit Kumar Singh, Abhishek Kumar Suman, Satish Kumar Pandey, Sujal Sanjay Bachhav and Pradeep Maurya	128-131
23	Hydroponic Gerbera Cultivation: A Sustainable Approach Dr. Amit Kumar Singh, Md. Zeeshan Qaiser, Md. Rizwanullah, Manorama Lakra, and Rameshwar Meena	132-135
24	Nano technology for improving soil water management and reducing submergence Swaraj Swadhin Pradhan, Rathod Sridhar and Aruna K.	136-139
25	Salt affected soils - Nutrient dynamics and significant remediation measures Manoj Kumar Mahapatra, Rathod Sridhar and Aruna K. ³	140-143
26	Insect-Plant Interactions: Unlocking Sustainable Agricultural Practices Gummudala Yashaswini, A. Pavithra, Abinaya S, Alagesan Keerthana and Somala Karthik	144-147
27	Deep Learning Driven Methodologies For Mushroom Harvest- A Novel Approach Challa Yashaswini, K. Gopika, Adluri Prashanth, K. Manasa	148-150
28	Rice Straw Derived Silicon - Applications Review Of Advanced Technologies In Agriculture And Allied Sectors K. Vilakar, Chuncha Laxmi Prasanna, R. Sridhar, K. Nagaraju, Sarat Sekhar Bora	151-154
29	Phytohormones As Growth Hormones During Abiotic Stress Tolerance In Plants Th. Nengparmoi, K. Vilakar, R. Sridhar, B. Paramesh, S G Sarowar	155-157
30	Artificial Intelligence Role In Feeding The World Saomya Dubey, Pooja Dilip Limbhore, K. Vilakar, K. Nagaraju, Dhiksha Madhu	158-160
31	Effective Strategies for Schools to Engage Families in Social-Emotional Learning (SEL) Rajani Karnwal, Dr. Khwairakpam Sharmila	161-163
32	Understanding Insect-Plant Interactions: A Key to Sustainable Agriculture Aleena Biswal, Dibyashakti Priyadarshi, Bishnu Prasad Behera, Lipsa kuanr and Debasish Desinayak	164-167
33	Entomological Research and the Role of Insects in Ecosystem Functioning Gudipati Naveen, Dabhi Rajkumar, Sanjay Hembram and Kamal Yadav	168-175

Hindi Articles

1	सरसों की फसल में कीट एवं रोग प्रबंधन प्रहलाद एवं प्रीति वशिष्ठ	1-4
2	सूक्ष्म सिंचाई: टिकाऊ कृषि के लिए एक अच्छा एवं प्रभावी विकल्प राजवीर सिंह, बसंत कुमार दादरवाल ¹	5-10
3	आम पर लगने वाले रोग व समन्वित रोग प्रबंधन राधा, इमरान अली, वेदांत सिंह एवं हंस राज वर्मा	11-17
4	एकीकृत कृषि प्रणाली का खाद्य, पोषण, रोजगार में महत्व राजवीर सिंह, बसंत कुमार दादरवाल ¹	18-22

5	क्रतिम सजावटी पीधे और उनका उपयोग डा० पूर्णिमा सिंह सिकरवार	23-28
